#### Greatland Laser<sup>®</sup> safety and rescue products Brave Any Adventure

Perhaps one of the best night signals invented. US Navy Aviation Survival Gear Field Test

## Expending fan of light

#### Greatland Laser

Our handheld rescue-signaling devices are like no other, with an expanding line of light it offers much higher visibility than other traditional signaling devices.

Come and experience why professionals and outdoors enthusiasts the world over have come to rely on this ultimate personal survival tool.

Expanding line of light makes it easy to signal and produces a safe, and brilliant flash of light

In a search and rescue situation, being seen can mean the difference between life and death.

#### "Always be prepared. Always be found. Always come home."

At Greatland Laser®, our Rescue Laser devices are like no other. We are proud to say, in over two decades of developing and selling these unique signaling devices we have never had a safety issue. Hand-held models, the size of a small flashlight, project laser light through a special lens that can be seen miles away. The patented technology converts a point of laser light into an expanding line of light with much higher visibility than traditional signaling devices. Experience why outdoor enthusiasts and professionals the world over have come to rely on this ultimate personal survival tool.

Comparison	Rescue Laser Flare®	Pyrotechnic Flare
Signal Duration	Many Hours	Few Minutes
Detection Capability	See / Locate	None Reflective Materials
Fire Risk	No Risk	Flammable
Environmental Risk	Eco-Friendly Environmentally Safe	Hazardous Material
Visibility	Long Duration Easy to Locate Source	Short Duration Difficult to Locate Source

### The Ultimate Survival Tool

Hours of Signaling, Visible up to 20 - 30 Miles Waterproof, Eco-Friendly, Safe, Effective, Easy to Use - Made in the USA

rescue laser emergency signaling devices

**Rescue Laser Light** emergency signaling device

## Small enough to carry in your pocket, EDC or put on your life jacket!

er: R. L013-01

- **Product Specifications:**
- Visibility: 20 m (32 km) nighttime, optimum conditions
- Daytime signaling up to 1-3 miles (1.6 - 4.8 km)
- Waterproof: to 80 feet (24 m)
- Laser Diode: Red 10.000 hours meantime life
- Laser Class: 3R < 5mW cw max
- Beam Divergence: Operating
- temperature: -10° C ~ +50° C
- Operational Life: 40 hours continuous use before changing battery
- Battery: CR123 lithium battery
- · Non-flammable, environmentally friendly
- · Hole in end cap for attachment to a lanyard, carabiner or key ring
- · Rugged anodized aluminum, corrosion resistant
- Limited Lifetime Warranty - see website for details

Model #RLL013-01. Shown actual size. SIGNAL DURATION EQUAL TO 2400 **ONE-MINUTE PYROTECHNIC FLARES\*** 

# "life-tested tough"

Rescue Laser Flare<sup>®</sup> Green emergency signaling device

#### **Brightest Signal!**

**Product Specifications:** 

- optimum conditions Daytime signaling up to 1-5 miles (1.6 - 8 km)
  - Waterproof: to 80 feet (24 m)
  - Laser Diode: Green 5.000 hours meantime life

Visibility: 30 miles (32 km) nighttime,

- Laser Class: 3R < 5mW</li>
- Operating temperature: +15° C ~ +45° C
- Operational Life: Approximately 5 hours before changing batteries
- Battery: CR123, 3V Lithium
- Non-flammable, environmentallly friendly
- · Hole in end cap for attachment to a llanyard, carabiner or key ring
- Compact and lightweight, only 4.7" long and 3.3 oz.
- · Rugged anodized aluminum, corrosion resistant
- 180 Day Warranty - see website for details

Model #GLF032-01. Shown actual size.

SIGNAL DURATION EQUAL TO 300 **ONE-MINUTE PYROTECHNIC FLARES** 

Rescue Laser Flare<sup>®</sup> Magnum emergency signaling device

> Designed to stow away in your gear or life raft!

Visibility: 20 miles (32 km) nighttime,

Daytime signaling up to 1-3 miles

RLFAA023

Waterproof: to 80 feet (24 m)

**Product Specifications:** 

optimum conditions

(1.6-4.8 km)

- Laser Diode: Red 10.000 hours meantime life
- Laser Class: 3R < 5mW</li>
- Operating temperature: -10° C ~ +50° C
- Operational Life: Approximately 72 hours before changing batteries
- Battery: Two 1.5-volt AA
- Non-flammable, environmentally friendly
- · Hole in end cap for attachment to a lanyard, carabiner or key ring
- Compact and lightweight, only
- 5.7" long and 4.8 oz.
- Rugged anodized aluminum, corrosion resistant
- Limited Lifetime Warranty - see website for details

Model #RLFAA024-01. Shown actual size. SIGNAL DURATION EQUAL TO 4320 **ONE-MINUTE PYROTECHNIC FLARES\***
