## Rescue Lasers At-A-Glance

### *Brave Any Adventure*

Rescue Laser Light  
SKU: RLL013-01

#### Greatland Laser Product Information Regulatory Laws

Laser products are regulated under the Food and Drug Administration Center for Devices and Radiological Health (CDRH). This model is included in Greatland Laser's "Rescue Laser Flare®" family of products, accession number 0112140, originally filed in 2001. The most recent annual report was submitted August 2021, accession number 2131403-000.

In February 2012, the United States Congress passed into law HR658 authorizing appropriations for the Federal Aviation Administration (FAA). Included in the law is Section 311 "Prohibition against Aiming a Laser Pointer at an Aircraft". Section 311 39A(c)(3) on page 56 specifically exempts "an individual using a laser emergency signaling devices to send an emergency distress signal."

Greatland Laser has sold its patented laser emergency signaling devices throughout the world since 2001. We have never had a safety issue with the products. Under the exception provided in this federal law, Rescue Lasers are legal to signal an aircraft for help in an emergency.

Greatland Laser's products are covered by U.S. Patent Numbers 6,007,219; 6,163,247; 6,280,057; 6,295,007; 6,688,755 and Canadian Patent Number 2,313,469. All patents and the Rescue Laser Flare® trademark are assigned to Greatland Laser, LLC.
